

Using AxisReader

AxisReader is Axis 360's alternative mobile device app. AxisReader works similar to the Overdrive Media Console, it provides access to eBooks that have been checked out from our Axis 360 digital library. Patrons can download eBooks in both EPUB and PDF formats as well as return early.

Step 1

Get software and apps here: <http://tinyurl.com/SDPLAxisReader>

When installing the axisReader app, user will need to “authorize” the app with an Adobe ID.

Step 2

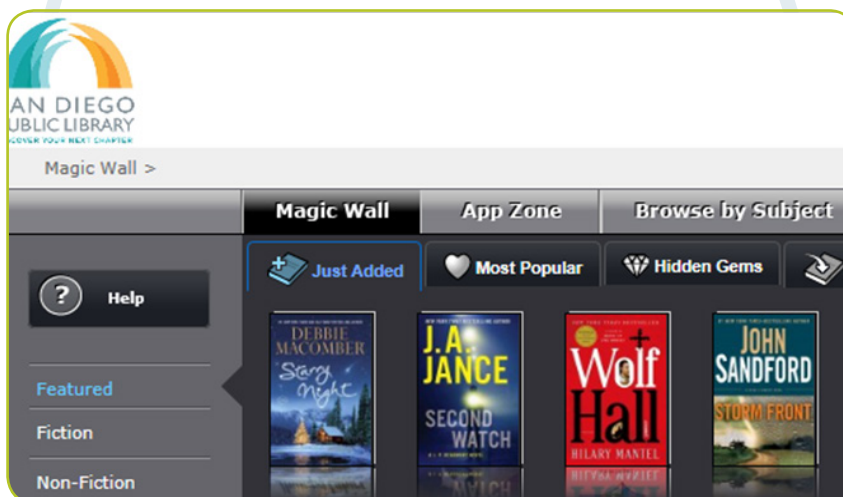

If you do not have an Adobe ID, visit this site to get one:

<http://tinyurl.com/SDPLAdobeID>

Step 3

Find a title to check out at our Axis 360 digital library here:

<http://tinyurl.com/Axis360Library>

Step 4

Select the EPUB or PDF format (if available) at checkout. At this point you will be instructed to log into Axis 360 (if you haven't already done so). Once you are logged in and the checkout is complete, you will receive a confirmation of checkout message.

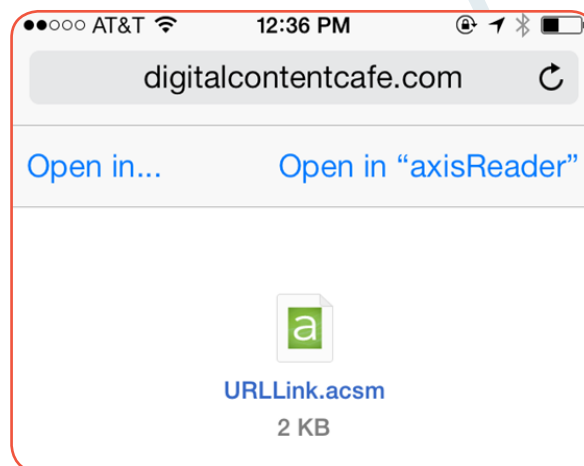

Step 5

After checkout, a download prompt will appear.

Select download and the item will appear as an URLLink.acsm file. Select **Open in "axisReader"** or another eReader app of your choice (e.g. Overdrive Media Console).

Returns

EPUB and PDF items can be returned from the device that they were downloaded to. To return titles in axisReader, simply go the eBook's info page and you will be given options to read, delete, edit as well as return item.
